

## QUALITY POLICY

O.M.E. S.r.l. considers it strategic for its organisation to operate with a quality management system compliant with UNI EN ISO 9001

This system has as its objective the production and sale of engines with:

- the ability to design engines
- the possibility to produce the engines
- the guarantee that all legal provisions concerning CE marking are complied with so that the engines sold bear the O.M.E. srl manufacturing mark
- the commitment to promote and constantly monitor the degree of training and skill, both technical and operational, of the internal personnel
- all in order to promote the company's economic growth and improve customer satisfaction.

OME srl also produces its own brand of explosion-proof electric motors (Atex), also by virtue of the EU Type Certificate for Atex motors and the Quality System certification for the production of explosion-proof equipment, in accordance with standard IEC 80079-34, issued by Notified Bodies. These strategic objectives are periodically reviewed by the Management, keeping the following commitments constant over time:

- guarantee maximum speed in order processing, with products in stock for the entire range of engines in the price list;
- offer a technical and commercial assistance and consulting service to assist customers in identifying the products to be used;
- maintain a high quality/price ratio, also by optimising internal management processes and searching for increasingly competitive suppliers;
- ensure the quality and reliability of the engines offered;
- a commitment to continuous improvement of the quality management system
- implement company management according to the process approach, as envisaged by the UNI EN ISO 9001 standard, continuously considering the context of the organisation, determined both by internal and external factors and by the requirements of interested parties.

The Management undertakes to communicate and make this Policy understood by all personnel and all interested parties, aware of the importance of all the company's personnel in achieving the established commitments. This policy will be periodically reviewed, together with the quality objectives established with it.
